

ALYSSIUN RoadMap

Website: Alyssiun.com

ABOUT US

ALYSSIUN is a Real Global Role-Play Simulation in the Virtual Reality Universe where you can work, get entertained, and connect with people around the world.

VISION

Our vision is to give you a real virtual environment where you can work, get entertained, and connect with people globally.

MISSION

Our mission is to provide the most realistic experience using the most advanced technologies available.

Year 2022

- > Launch the first BETA versions 1.0.0 for Windows.
- > Implementing Spatial Audio technology, where everyone can talk in the metaverse with proximity communication.
- > Start making virtual networking events.
- > No more BETA and ALYSSIUN is 100% working for Windows.
- > Allow users to create their own events.
- > New version 2.0.0 where everyone can access more easily than before.
- > Not account creation need.
- > No more problems with different regions.
- > You don't need to download manually the application to have the latest version. Now the application will update automatically before you enter the Metaverse to keep the Metaverse with the latest version.
- > The First EXPO Event.
- > Screen Sharing Technology, where everyone can share their screen with others inside the metaverse, perfect for schools, universities and meetings.
- > Implementing cars inside the metaverse.
- > Portals to move between sectors/planets
- > Allow people to build their own virtual spaces.

Year 2023

- > No more warning messages from Windows, because ALYSSIUN will be digitally signed with Microsoft
- > New avatar system that you can customize to create your own avatar for the Metaverse.
- > Opening the Market where everyone can Sell and Buy NFTs.
- > Allow people to buy their own lands
- > New Microphone system where you can talk to more people with a bigger range. Perfect for conferences, concerts, schools, and more...
- > ALYSSIUN Coin will be launched to start the economy with blockchain technology where everyone can do real business in the metaverse.
- > ALYSSIUN VR, where everyone can access the metaverse with their own VR to get more immersive experience in all virtual worlds in ALYSSIUN.
- > Photorealistic and Hyper-Realistic Technology to get the most realistic experience as a real simulation in ALYSSIUN
- > and more advanced technology will be implemented to expand the metaverse for everyone.
